UltraSpeed Pro[®] Cleaning Systems

The next generation in mopping for the entire facility

a brand of
 **FREUDENBERG**

Compact, easier and more efficient!

The most effective and easy to use bucket and wringer system for use on floors, walls and ceilings for the entire facility.

Demands on cleanliness, cost, ease of handling and staff training is constantly increasing. UltraSpeed Pro® will dramatically increase speed and cleaning performance while decreasing total costs and improving versatility and ergonomics.

Unbeatable performance

Compared to current bucket and wringer systems, the UltraSpeed Pro® outperforms them in every aspect. The compact system is ideal for limited storage and is not only lightweight but ergonomic which means no bending to wring mops. The system is easy to use and does not require training. The CE UltraSpeed Pro® double bucket system is designed for use in cleanrooms up to ISO 4-9/GMP A/B, C, D within Pharma, BioPharma, MedDevice, Electronics and Hospitals. The combination of fully autoclavable system parts, low particle shedding Polyester-Microfiber mops and wringing of mops without hand contact offers a high level of hygiene during use.

The UltraSpeed Pro® single or double bucket system for general facilities is flexible enough to clean difficult areas and offer maximum cleaning performance while reducing mopping times. With a range of single-use as well as reuseable mops, whatever your need there is a solution for you!

Easy to use

- High performance polyester-microfiber mops
- Highly absorbent mops for cleaning and disinfecting
- No training required

Efficient

- Excellent cleaning results have been independently proven*
- Wringer allows for controlled water release
- Compact chassis with small footprint for easy storage

Hygienic

- System is easily cleaned and sanitized
- Touchless wringing of mops
- CE UltraSpeed Pro® is autoclavable and low particle shedding

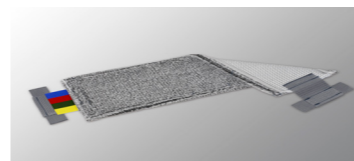

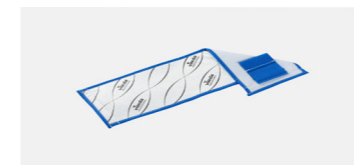

Ergonomic

- Lightweight system, no bending to wring
- Easy gliding microfiber mops

Usage

- Floor, wall and ceiling cleaning with one system
- Easy to use wringer

* 3rd party tested at BMA Laboratory for bacteria removal. Request report from your local Area Sales Manager.

CE UltraSpeed Pro® Double Bucket System

- Controlled Environment kit includes two buckets with flat mop wringer and chassis
- Lightweight double bucket systems allows separation of dirty liquid and clean liquid
- Touchless wringing of mops using the patented, fast and efficient wringer
- Changeable color coding-clips within the buckets (blue, red, yellow, green)
- Autoclavable, including stainless steel parts, durable and withstands common disinfectants

MicroIntensive® L Disposable Mop

- Manufactured for Clean and Controlled Environments
- Highly absorbent with even water release and easy rinsing
- High performance microfiber with very low particle shedding
- High chemical resistance against most disinfectants
- Pre-laundered and single bagged for use in ISO 4-9/GMP A/B, C, D

MicroStrong® Reuseable Mop

- Manufactured for Clean and Controlled Environments
- High performance microfiber ideal for cleaning floors, walls and ceilings
- Strong and durable looped construction for strong cleaning performance
- Highly absorbent and very low particle shedding
- Mops are labeled with lot code marking

UltraSpeed Pro® Single Bucket System

- Single bucket ready-to-go kit includes single bucket with downpress wringer, chassis, Vileda universal handle, 16" frame and UltraSpeed™ Trio mop pad
- Lightweight and robust bucket with ergonomic handle for carrying
- Patented wringer is the fastest, most efficient on the market
- Changeable color coding clips within the buckets (blue, red, yellow, green)

UltraSpeed Pro® Double Bucket System

- Double bucket ready-to-go kit includes two buckets with downpress wringer, chassis, Vileda universal handle, 16" frame and UltraSpeed™ Trio mop pad
- Lightweight, double bucket system allows for separation of dirty liquid and clean liquid
- Patented wringer is the fastest, most efficient on the market
- Changeable color coding clips within the buckets (blue, red, yellow, green)

MicroOne® Premium Disposable Mop

- Fibers are split into 32 segments vs. traditional 16 split for improved cleaning results
- Low friction and fast, stubborn dirt removal with optimized pocket design
- 3rd party independently proven cleaning results*
- Inner layer increases absorbency and floor coverage by 30%

MicroPlus™ & MicroLite™ Launderable Mop

- Microfiber mop pad with best cleaning performance and durability
- Dark grey striped cleaning zones allow scrubbing of stubborn dirt
- Changeable color coding tags within the mops (blue, red, yellow, green)
- MicroLite is the lite version of the MicroPlus™, offering high cleaning intensity (not pictured)

Trio™ Launderable Mop

- White zone: Microfiber for high mechanical cleaning action, minimizes chemical use
- Grey zone: Polyester provides low friction and high durability
- Beige zone: Blended polyester and viscose to provide absorbency
- Changeable color coding tags within the mops (blue, red, yellow, green)

MicroSafe™ Launderable Mop

- Speciality mop for cleaning grit, rough and safety floors
- Excellent for wet scrubbing stubborn dirt
- Changeable color coding tags within the mops (blue, red, yellow, green)

* 3rd party tested at Dr. Brill & Dr. Steinmann Institute For Hygiene and Microbiology for bacteria removal. Request report from your local Area Sales Manager.

Vileda Professional – a part of the Freudenberg Group

Vileda Professional provides innovative cleaning solutions and systems for professional users in various application areas, such as General Building, Healthcare, HoReCa and Controlled Environment. With sales offices in all major European countries, in North America and Asia – and with a wide net of representatives – we are well located around the world. Vileda Professional belongs to the Freudenberg Group – a diversified family-run global company, headquartered in Germany.
