

October 17, 2007

Dear Pharmacist:

**Biovail Pharmaceuticals, Inc. would like to inform you that the Vasotec® Tablets in the 90 count package size will be available in very limited quantities for the foreseeable future.** As a result, we have been experiencing periodic backorders on all 90 count NDC's.

**However, all Vasotec® strengths are currently available in a 30 count package size.** This package size has been available since March 1, offering added convenience for dispensing prescriptions. **To ensure quick delivery and avoid potential backorders please consider ordering the 30 count package size in the future.**

The NDC numbers for the 30 count are listed below. Please be sure these NDC's are reflected in your systems.

| <u>Product</u>                 | <u>Strength</u> | <u>Package Size</u> | <u>NDC #</u> |
|--------------------------------|-----------------|---------------------|--------------|
| Vasotec®Tablets<br>(enalapril) | 2.5mg           | 30ct                | 64455-140-30 |
| Vasotec®Tablets<br>(enalapril) | 5mg             | 30ct                | 64455-141-30 |
| Vasotec®Tablets<br>(enalapril) | 10mg            | 30ct                | 64455-142-30 |
| Vasotec®Tablets<br>(enalapril) | 20mg            | 30ct                | 64455-143-30 |

Also, if you have open orders for the Vasotec 90 count, you might consider canceling them and ordering the 30 count instead. If you have any questions concerning this communication, please contact our Customer Service Department at 1-866-BIOVAIL, Option 1. Thank you for your attention in this matter. Your continued support of the Biovail Pharmaceuticals, Inc. product line is greatly appreciated.

Sincerely,

*Cheryl Volker*
