Indication & Important Safety Information

- COLAZAL (balsalazide disodium) Capsules 750 mg is indicated for mildly to moderately active Ulcerative Colitis.
- The recommended dosage is three 750 mg COLAZAL capsules TID.
- COLAZAL does not relieve symptoms in all patients; your patients' results may vary. In four well-controlled clinical trials, patients receiving a COLAZAL dose of 6.75g/day most frequently reported the following events (reporting frequency > 3%): headache (8%), abdominal pain (6%), diarrhea (5%), nausea (5%), vomiting (4%), respiratory infection (4%), and arthralgia (4%). Withdrawal from therapy due to adverse events was comparable to placebo. COLAZAL is contraindicated in patients with a hypersensitivity to salicylates. The safety and effectiveness of COLAZAL beyond 12 weeks have not been established.
