

# FUNNYBONE<sup>TM</sup> *silk*

(epidermis lotion) 100%

## SUPER STRENGTH LOTION that hydrates the driest elbows

FunnyBone Silk<sup>TM</sup> is indicated in patients with pesky dry skin on the elbow joints caused by seasonal cold and dry weather, contact with wool sweaters and the occasional run-in with harsh carpet fibers.

- Easy to self-administer
- Available in scented and unscented formulas
- Large, 48 oz. tub for all-winter use

NDC 55555-444-33

For more information, please call 1-888-555-5555 or visit [www.funnybonesilk.com](http://www.funnybonesilk.com).

### Important Safety Information

#### Irresistible touch risk

Epidermis lotions may cause an increased risk of touching the silky smooth elbow skin by the patient and others. This risk may increase with duration of use.

#### Incessant inquiries risk

In some patients, apparent silky elbow skin may also cause an increased risk of envy by others, followed by their inquiries about the dry skin solution. Patients with a phobia of speaking may want to wear long sleeves in public places to avoid drawing attention to the elbows.

Carefully consider the potential benefits of FunnyBone Silk<sup>TM</sup>, and talk to your dermatologist about the inherent risks.

FunnyBone Silk<sup>TM</sup> should not be given to patients with already silky smooth skin.

Use of FunnyBone Silk<sup>TM</sup> is not intended for the treatment of dandruff or peeling skin due to sunburn.

FunnyBone Silk<sup>TM</sup> can be used by patients 2 years and up.

Keep FunnyBone Silk<sup>TM</sup> away from eyes and mouth. Ingesting FunnyBone Silk<sup>TM</sup> lotion tastes bad and is not recommended. If ingested, gargle with a listerine for two minutes and rinse. If the lotion product comes in contact with the eyes, rinse with clean cold water.
