(diatrizoate meglumine and
diatrizoate sodium solution USP)

A Solution to Your GI Imaging Needs

Water-soluble iodinated contrast for body CT and fluoroscopy when imaging the:

- Esophagus
- Stomach
- Proximal small intestine
- Colon

Gastrografin increases your options with a 30 mL bottle for convenient single-unit dosing:

- Ready-to-use, convenient administration
- No powder to reconstitute
- Palatable lemon flavor

This item is available for ordering from your Cardinal Health Customer Service Team.

Product	Strength	Size	Form	NDC#	CIN
Gastrografin	76%	30 mL	Solution	00270-0445-35	3658358

Not for parenteral use; do not inject. Oral or rectal administration only.

It should be kept in mind that serious or anaphylactoid reactions that may occur with intravascular administration of radiopaque contrast agents are theoretically possible following administration by other routes. Patients at increased risk include those with a history of a previous reaction to a contrast medium, patients with a known sensitivity to iodine per se, and patients with a known clinical hypersensitivity (bronchial asthma, hay fever, and food allergies).
