

FEATURES AND BENEFITS

Features

- The new liquid ovals are manufactured from 100% post consumer recycled PET resin.
- Recycled Ovals are available in the same sizes as Rexam's existing virgin PET line:
 - 2, 3, 4, 6, 8, 12 and 16 oz.
- Recycled Ovals meet the same government standards as Rexam's current virgin PET line:
 - Light Transmission requirements set by the United States Pharmacopeia (USP).
 - Moisture Permeation requirements by the USP.
 - Child-Resistant and Senior-Friendly protocol requirements set by the Consumer Product Safety Commission (CSPC).
 - Resin complies with FDA regulations.

Benefits

- The 100% recycled oval can be recycled again, further reducing resource consumption.
- The bottles feature the  symbol promoting consumers to recycle.

Why choose Rexam Recycled Ovals?

- Pharmacists and consumers have shown a preference in purchasing packaging with recycled material.
- Pharmacists and consumers are more likely to become brand loyal because of a company's commitment to protecting the environment.
- The new Recycled Ovals will differentiate a pharmacy's businesses by enabling them to market themselves as environmentally friendly.
