New Tablet Formulation for Sarafem[®]

March 27, 2008

Sarafem[®] has a new tablet formulation. Sarafem[®] 10mg and 20mg Tablets are now available from Warner Chilcott. The new Sarafem[®] Tablets replace the Sarafem[®] 10mg (NDC 00430-0435-14) and 20mg (00430-0436-14) capsules. Warner Chilcott requests that you update your databases to reflect these **new NDC numbers**. Also, we ask that you **cross-reference (link)** the new NDC numbers to the old NDC numbers so that purchasing, prescription fulfillment and reimbursement coverage are not interrupted.
