

Join **ReconRx** today and we will **waive your monthly fee** for July, August and September!

RECONRX

\$175.00/mo
Flat Fee!

Enroll online at www.recon-rx.com

ReconRx is a state of the art third party claim reconciliation program that tracks payment at the transaction (claim) level. ReconRx ensures payment to your pharmacy in the amount promised at the time of adjudication. Payment is directed to your pharmacy so ReconRx will not impede cash flow.

ReconRx automatically goes after payment up to 15 days earlier than competing programs in order to recover missing payments, ensure timeliness of payment, and increase cash flow. An online Aging Report allows your pharmacy to view up-to-date receivables 24 hours a day.

Program Highlights

- Save time
- Enhance cash flow
- No software to install ; no specific software needed
- User-friendly website
- No research fees
- Aging report available 24/7

SinglePay®

ReconRx also offers a "SinglePay" option for pharmacies wanting a central pay environment. Please contact ReconRx for more information.

Claim-level Reconciliation - ReconRx tracks your payment at the claim level and recovers all missing and short payments to the penny!

No Write-Offs - Unpaid and short-paid claims are tracked on your aging report until the full balance is recovered. ReconRx does not write-off payments unless specifically discussed with your pharmacy.

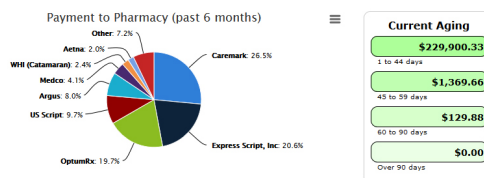

Hassle-Free - ReconRx *automatically* goes after payment for your pharmacy. No action is required by your pharmacy staff to initiate contact with the third party payer on outstanding payment.

Interventions - ReconRx logs status updates on unpaid claims and missing checks. All status updates can be viewed by your pharmacy via our website 24 hours a day under INTERVENTIONS.

Tracking Timeliness of Payment - In addition to recovering lost payment, ReconRx holds the third party payers responsible for paying your pharmacy in a timely manner.

**No Money
Left Behind!**
