- Handles vials up to 60 drams with caps
- Holds up to 100 vials of Mixed Sizes
- 120 pounds
- Automatic shut-off for maximum convenience and safety
- Automatic shut-off when waste bag is full
- Disables when waste bag is not installed to prevent accidental operation
- Provides quiet low maintenance operation while being easy-to-use
- Moves easily via large robust casters that lock once in place
- Standard 120v, 60HZ, 10amp, 1200w power supply
- UL, ULC, or equivalent

Automatic shut-off

To replace collection bag, simply slide the cardboard collar off the chute and install a new bag.

ENSURES PATIENT PRIVACY

WASTE REDUCTION

TIME AND LABOR SAVING

CONVENIENT

PROMOTES GREEN INITIATIVES

RECYCLE FRIENDLY

Providing Innovative ideas to help pharmacy operations

The **AVS-100** efficiently shreds vials into a format that is easily disposed or recycled

Customer Convenience, Patient Privacy; All While Cutting Your Costs

Busy pharmacies generate hundreds of vial orders daily. Patient-labeled vials or unit of use bulk bottles left unclaimed or returned by patients need to be destroyed for the privacy and security of your customers and to meet the requirements of Patient Privacy Policies. The current practice of removing patient labels by hand is extremely tedious and time consuming.

TCG resolves these issues with the AVS-100 Automated Vial Shredder, the most cost-effective means for destroying vials; including the difficult to shred labels. Pharmacies that can safely handle returned patient vials offer a valuable service to their customers.

AVS-100 reduces labor and increases compliance.

A Greener Pharmacy

By reducing waste to 25% of original volume, the AVS-100 promotes Green Initiatives and helps protect our environment. Of course by reducing the volume of waste, you slash your disposal costs. The reduced waste is recycle-friendly.

Reduce, Recycle

The AVS-100 allows you to:

- Provide a service to customers who return vials
- Handle unclaimed will call vials
- Destroy patient - labeled vials
- Save pharmacists' and technicians' time
- Prevent identity theft, thereby protecting your business
- Maintain requirements of Patient Privacy Policies
- Dramatically reduce waste disposal and pick-up costs
- Contribute to Green Initiative

User-friendly control panel:
Start, Check bag, Bag full and Cancel buttons.

The shredding process is simple, safe and fast. Just open the lid, insert the vial and press START.
